

4.5 x .37 x 7/8 Inch Grinding Wheel

This grinding wheel measures 4.5 x .37 x 7/8 inches. It is suitable for grinding applications across metalworking, construction, and maintenance tasks.

Product Overview

High-Performance Grinding Wheel

This 4.5-inch grinding wheel is engineered for precision material removal and surface finishing on demanding metal types. Constructed from high-quality White Aluminum Oxide, it offers superior hardness suitable for high-speed, high-carbon, hardened, and alloy steels. Designed for compatibility with standard grinders, this wheel ensures consistent performance for metalworking, construction, and maintenance applications.

Dimensions

Diameter	4.5 inch
Thickness	0.37 inch
Arbor Hole Size	0.875 inch

Material & Compatibility

Primary Applications

- Metalworking
- Construction
- Maintenance Tasks
- Surface Finishing

Abrasive Material	White Aluminum Oxide
Compatible Materials	High Speed Steel, High Carbon Steel, Hardened Steel, Alloy Steel

Customization

Available Custom Shapes

- Parallel Cup
- Cup Emery Wheel
- Cylinder
