Overview

High-Performance Isolation

This 45A 1-Gang Double Pole (DP) switch is engineered for robust electrical power transmission and distribution. Designed for high-current applications, it provides a reliable means of isolating both live and neutral conductors, ensuring maximum safety during maintenance or emergency situations. Its durable construction and clear ON/OFF indication make it an ideal solution for controlling heavy-load appliances such as cookers.

Technical Specifications

Rated Current	45 A
Pole Configuration	Double Pole (DP)
Gang Count	1

Features

Key Features

- Robust construction for durability
- Clear ON/OFF visual indication
- Suitable for high-current applications
- Cooker control capability
- Double pole isolation (Live and Neutral)
