

4.5kW Gasoline Generator with 220V Output

This gasoline generator delivers a maximum output of 4.5kW and a rated output of 4.0kW. It includes a voltmeter, circuit breaker, and a 6-FM-9 (12V9AH) maintenance-free sealed lead-acid battery for reliable starting.

Overview

Reliable Power Generation

This 4.5kW gasoline generator is a robust power solution designed for versatility and reliability. It provides a stable 220V output at 50Hz, making it ideal for backup power during outages or for use in remote locations where grid power is unavailable. With features like an enlarged fuel tank for extended runtime and a maintenance-free battery for easy starting, this unit ensures consistent performance for your critical power needs.

Performance Metrics

Maximum Power Output

4.5 kW

Max Output

4 kW

Rated Output

Electrical Specifications

AC Output Voltage	220 V
Frequency	50 Hz
DC Output	12V 8.3A

Components & Safety

Safety & Monitoring	Voltmeter, Circuit Breaker
Starting Battery	6-FM-9 (12V 9AH) Maintenance-free Sealed Lead-Acid

Design Features

Key Design Highlights

- Enlarged fuel tank for extended runtime
- Strong endurance for continuous operation
- Integrated voltmeter for voltage monitoring
- Reliable electric start system
