Overview

High-Efficiency Fireplace Blower

This 45W fireplace blower is engineered for optimal air circulation and effective heat distribution, making it an ideal choice for enhancing residential heating efficiency. Built with a durable cast iron housing and a robust motor, it ensures consistent airflow and long-lasting performance. Its compact design allows for seamless integration into various fireplace models, providing quiet and reliable operation.

Technical Specifications

Output Power	45 W
Phase	1
Housing Material	Cast Iron
Weight	2.5 kg

Performance Metrics

Performance by Voltage

Voltage (V)	Freq (Hz)	Current (A)	Pressure (mmAq)	Airflow (CMM)
110	60	0.55	26	2.7
220	60	0.3	26	2.7
220	50	0.3	18	2.2

Rated Speed	2800 RPM
