Technical Specifications

Product Dimensions	595 x 575 x 835 mm
Voltage	110V, 220V

Cooling System

Temperature Range Details

Zone	Celsius Range	Fahrenheit Range
Upper Zone	5-12	41-54
Lower Zone	12-18	54-64

Cooling Technology

- Smart quiet-run compressor
- Forced air circulation for uniform cooling
- Low vibration to protect wine sedimentation
- Integrated carbon filter for odor removal

Design & Build

Installation Options

Built-in • Freestanding

Exterior Materials

- Stainless-steel body
- Double-layer glass door
- Wooden shelving
- Adjustable leveling legs

Control & Safety

Safety & Memory

- Smart memory function (retains settings after power loss)
- Automatic control lock after 3 minutes of inactivity
- Blue LED interior lighting

User Interface

Digital touch control with LCD temperature display
