

# 46-Spindle Piping Cord Braiding Machine

This high-speed braiding machine is designed for producing piping cords and other braided products. Featuring 46 spindles, it enables efficient and high-volume production.

## ADDITIONAL IMAGES

## Overview

### High-Efficiency Braiding Solution

This 46-spindle piping cord braiding machine is engineered for high-speed production of garment accessories and textile products. It supports a wide range of materials, including cotton, nylon, carbon fiber, and composite materials, ensuring versatility for various manufacturing needs. Designed with operator convenience in mind, the machine features automatic stop functions for yarn breakage and exhaustion, reducing the need for constant supervision while maintaining high output quality.

## Technical Specifications

### Performance Metrics

**0.75 KW**

Motor Power

**300 RPM**

Max Horngear Speed

### Spindle Configuration

Component	Value
Heads Qty	2
Spindle Qty	40
Horngear Diameter	90 mm
Bobbin Size	OD 47 x 139 mm

Model	KBL-46-2-90
Machine Dimensions	1650 x 1250 x 1750 mm
Weight	750 Kg

## Features & Capabilities

### Key Features

Auto-stop motion • Variable speed control • Meter counter • Oil-free operation

### Compatible Materials

- Cotton
- PP
- PE
- Fiber glass
- Nylon
- Carbon Fiber
- PET

### Certifications

CE, ISO
