

48-Inch Sheet Metal Bending and Cutting Machine

This 48-inch bending/cutting machine is a versatile tool designed for bending and cutting sheet metal. It features a robust frame and precise mechanisms for accurate forming and shearing.

Overview

Versatile Metalworking Solution

This 48-inch sheet metal bending and cutting machine is a robust, manually operated tool designed for precise metal forming and shearing. It offers a working length of 1220mm and handles material thicknesses up to 0.8mm, making it an essential addition for metalworking shops. With an adjustable bending angle range of 45 to 180 degrees, it provides the flexibility needed to create custom shapes and sizes with ease.

Technical Specifications

Working Length	1220 mm
Max Bending Thickness	0.8 mm
Max Shearing Thickness	0.8 mm
Bending Angle Range	45-180°
