

48-Inch Steel Ceiling Fan

This 48-inch steel ceiling fan is designed for both industrial and household applications. Its three-blade design ensures efficient air circulation, making it ideal for cooling large areas.

Product Overview

Industrial-Grade Air Circulation

This 48-inch ceiling fan is engineered for durability and efficient air movement, making it an ideal cooling solution for both industrial environments and large household spaces. Constructed with high-quality iron and plastic components, it offers robust performance and long-lasting reliability. Its streamlined three-blade design ensures effective airflow to keep large areas comfortable.

Technical Specifications

Color

White

Product Code

CFN56K-3M(F)

Size

1400 mm

Materials

Iron, Plastic

Logistics & Origin

Place of Origin

Guangdong, China

Place of Shipment

Guangdong, China
