

4.8kW Gasoline Generator with Electric Start

This gasoline generator provides a rated output of 4800 watts at 220V and 50Hz. It delivers a peak output of 5500 watts for up to 10 seconds to start larger equipment.

Overview

Reliable Power Solution

This 4.8kW gasoline generator is designed for consistent and reliable electrical power delivery in demanding environments. Featuring an efficient 389cc engine, it provides a stable AC output suitable for a variety of professional and backup applications. The unit is built for durability and ease of use, incorporating a convenient recoil starting system and a portable wheel kit for mobility.

Power & Performance

Max AC Output

5500 W

Max Power

25 A

Max Current

Rated AC Output

4800 W

Rated Power

21.8 A

Rated Current

DC Output

100W 12V 8.3A

Voltage Regulation

220V

Engine Specifications

Starting System

Recoil Start

Engine Model

GX390LPG

Displacement

389 cc

Bore x Stroke

88 x 64 mm

Operational Efficiency

Run Time (Rated Load)

7 hrs

Run Time (1/2 Load)

11 hrs

Noise Level

72 dB(A)

Physical Dimensions

Dimensions (L x W x H)	710 x 545 x 560 mm
Dry Weight	80 kg
Gross Weight	82 kg

Logistics

FCL Quantity (20'/40')

Container Type	Quantity
20'	128
40'	268
