

4G Wireless Internet Router

This 4G wireless router provides high-speed internet access. It supports both wireless and wired connections for versatile use in various environments.

Product Overview

High-Performance 4G Connectivity

This 4G wireless router is engineered to deliver reliable, high-speed internet access for both home and office environments. Supporting a wide range of LTE FDD and TDD bands, it ensures seamless global connectivity and robust data throughput. With advanced Wi-Fi capabilities and multiple wired interface options, it provides a versatile networking solution for up to 64 concurrent users.

Network Capabilities

Peak Data Rates

300 Mbps
LTE FDD DL

50 Mbps
LTE FDD UL

220 Mbps
LTE TDD DL

LTE Bands Supported

FDD 1, FDD 2, FDD 3, FDD 5, FDD 7, FDD 8, FDD 20, FDD 28, TDD 38, TDD 40, TDD 41

Wi-Fi Specifications

Wi-Fi Standards

802.11 b/g/n/ac

Wi-Fi Speed

- 2.4G 3*3 MIMO: 450Mbps
- 5G 2*2 MIMO: 867Mbps

Security Protocols

WPS, WPA, WPA-PSK, WPA2, WPA2-PSK

Physical Interfaces

Interface Ports

Interface Type	Quantity
SIM Slot	1
RJ45 LAN	4
SMA Antenna	2
USB-A	1

Environmental Specs

Operating Temperature	55 °C
Operating Humidity	5% - 95%
