

4L Shoulder Pressure Sprayer

This is a 4-liter shoulder pressure sprayer for spraying applications. It features a durable plastic tank, a hand-operated pump for pressurization, and an adjustable nozzle for controlling spray patterns.

Overview

Professional Shoulder Pressure Sprayer

The 4L shoulder pressure sprayer is a versatile tool designed for efficient application of liquids in gardening, agricultural, and cleaning environments. Built with a durable plastic tank, it features a reliable hand-operated pump system to maintain consistent pressure. The integrated adjustable nozzle allows users to customize spray patterns to suit specific task requirements.
