

4SH Series Submersible Water Pump

This submersible pump efficiently extracts water from deep wells and boreholes. It features a stainless steel construction for reliable performance in demanding environments.

Product Overview

4SH Series Submersible Pump

The 4SH Series submersible pump is engineered for reliable water extraction from deep wells and boreholes. Built with high-grade materials, it offers exceptional corrosion resistance and a high-efficiency motor for demanding irrigation and industrial water supply needs. Its robust construction ensures long-term operational performance across various flow and head configurations.

Technical Details

Available Pump Diameters

- 2 inch
- 2.5 inch
- 3 inch
- 3.5 inch
- 4 inch
- 6 inch

Material	Stainless Steel, Corrosion Resistant
-----------------	--------------------------------------

Applications

Suitable Applications	Deep Well Extraction, Agricultural Irrigation, Water Supply, Industrial Use
------------------------------	---
