

4x0.75mm² Rubber Power Cable

This rubber power cable features a 4x0.75mm² configuration. It is rated for 300/500V and conforms to IEC 57(YZW) standards.

Product Overview

Professional Grade Rubber Power Cable

This high-quality 4x0.75mm² rubber power cable is designed for versatile use in household electrical appliances and mechanical equipment. Engineered to conform with stringent global safety standards, it ensures reliable performance and longevity. It is fully compliant with RoHS and REACH environmental regulations, making it a sustainable choice for industrial and domestic applications.

Technical Specifications

Rated Voltage

300 V
Minimum

500 V
Maximum

Configuration	4 core x 0.75mm ²
Standards	IEC 57(YZW)

Certifications

Global Certifications

CCC • VDE • PSE • KTL • UL

Compliance	RoHS, REACH
