Product Overview

Professional Grade Silent Power Solution

This single-cylinder diesel generator provides reliable power outputs ranging from 5kW to 8kW, making it an ideal choice for both residential and commercial backup power needs. Designed with a focus on noise reduction, it operates quietly in noise-sensitive environments while maintaining a stable output for inductive loads. The unit is equipped with advanced safety features, including low oil level alerts and automated overload and short-circuit protection, ensuring a long service life and consistent performance.

Technical Specifications

Power Output Range

5 kW Minimum Output	8 kW Maximum Output	10 kVA Apparent Power
-------------------------------	-------------------------------	---------------------------------

Engine Type	Single-cylinder diesel
-------------	------------------------

Performance & Safety

Safety Systems	Low Oil Alarm, Automatic Voltage Regulator, Overload Protection, Short Circuit Protection
Alternator Material	100% Copper
Operational Noise	Silent type

Operational Details

Supported Frequency

- 50 Hz
- 60 Hz
