

5 HP Air Compressor Pump

This 5 HP compressor pump is a robust and reliable solution for various compressed air applications. Featuring a cast iron construction, it ensures durability and longevity even under demanding conditions.

Overview

Robust 5HP Air Compressor Pump

This 5HP compressor pump is a robust and reliable solution for various compressed air applications. Featuring a durable cast iron construction, it ensures longevity even under demanding conditions. Designed for efficient air compression, it delivers consistent performance suitable for industrial, automotive, and workshop environments.

Performance Metrics

Motor Power

5 HP

Motor Power

Air Displacement

530 L/min

Air Displacement

Working Pressure

10 bar

Technical Specifications

RPM 880 RPM

Number of Cylinders 2

Dimensions and Logistics

Packaging Information

6 units per package

Dimensions (LxWxH) 1110 x 1080 x 550 mm

Net Weight 55 kg
