Product Overview

Versatile 5-in-1 Detection Solution

This multi-function detector serves as a comprehensive tool for professional site work, combining stud, AC wire, and metal detection with integrated laser distance measurement. Designed for efficiency, the device features a large, illuminated LCD display that ensures clear readability in various lighting conditions. Its ergonomic design includes practical features like integrated holding needles for easy wall mounting, making it an essential, all-in-one solution for construction and renovation tasks.

Technical Specifications

Power Supply	9V Block Battery
Detection Capabilities	Stud Detection, AC Wire Detection, Metal Detection, Laser Distance Measurement
Display	Large Illuminated LCD

Features

Key Features

- 5-in-1 multi-function capability
- Integrated laser distance measurement
- Illuminated display for low-light conditions
- Integrated holding needles for wall mounting

Control Interface

Mode Switch • Read Button • RM Button • M Button • +/- Controls
