Product Overview

Dust-Free Cutting Solution

This 5-inch angle grinder dust shroud is designed to significantly improve safety and cleanliness during cutting operations. By attaching directly to your grinder and connecting to a standard vacuum system, it captures dust and debris at the source. The durable construction and adjustable clamp ensure a secure fit, making it an essential accessory for masonry and concrete work.

Technical Specifications

Compatible Grinder Size	5 inches
Material	Plastic
Model Number	MY-A10
Place of Origin	China

Features

Key Features

- Vacuum cleaner compatible
- Adjustable clamp for secure attachment
- Dust-free operation
- Durable construction

Application Areas	Concrete, Masonry, Cutting
