

5-Inch Wet Air Cutting Saw and Grinder

This 5-inch wet air cutting saw and grinder is a pneumatic tool for cutting and grinding where dust control is needed. It uses a water feed system to suppress dust and cool the cutting blade or grinding wheel.

Product Overview

Versatile Wet Cutting & Grinding

This 5-inch pneumatic tool is engineered for precision cutting and grinding of stone materials like marble and granite. Featuring an integrated 3-way water spray system, it effectively suppresses dust and manages heat during operation for smoother cuts and extended tool life. With an ergonomic side trigger and auxiliary handle, it provides operators with superior control and reduced fatigue during demanding tasks.

Performance Metrics

Key Performance Metrics

11000 RPM

Free Speed

20 mm

Max Cutting Capacity

9.8 CFM

Air Consumption

Technical Specifications

Diamond Cutting Wheel	5 inches
Working Pressure	90 Psi
Work Spindle	M14 x 2 (or 5/8")
Air Inlet	1/4 inch
Air Hose (ID)	3/8 inch

Features

Key Features

- Powerful motor for long tool life
- Protective metal guard for water management
- Ergonomic side trigger and auxiliary handle
- 3-Way water spray system for cooling and dust suppression

Application

Suitable Materials	Marble, Granite
