

5 lb CO2 Tank for Beverage Dispensing

This CO2 tank is made from food grade SS 304 stainless steel. It is suitable for dispensing beer, beverage, wine, and coffee.

Product Overview

Professional Beverage Carbonation Solution

This 5 lb CO2 tank is engineered specifically for reliable beverage dispensing and carbonation processes in brewery and bar environments. Built with high-pressure safety standards in mind, it features a robust valve assembly to ensure consistent gas delivery. Its compact size makes it an ideal choice for smaller dispensing setups while maintaining the durability required for professional use.

Technical Specifications

Capacity	5 lb
Primary Application	Brewery, Beer Dispensing, Carbonation

Safety & Construction

Valve Assembly	Robust Design • High-Pressure Rated
Construction	Durable high-pressure steel/alloy
