

50-70cc Off-Road Motorcycle for Recreation

This off-road motorcycle is designed for recreational use. It features a single-cylinder engine and knobby tires for enhanced traction on dirt surfaces.

Overview

Designed for Young Riders

This 50-70cc off-road motorcycle is specifically engineered for recreational use, providing an accessible entry point for younger or smaller riders. Built with a durable steel frame and rugged suspension, it is designed to handle rough terrain with confidence. Its compact ergonomics and reliable braking system ensure a safe and enjoyable riding experience for off-road enthusiasts.
