

5.0 Horsepower Diesel Generator

This diesel generator is designed for electric power transmission and distribution. It features a robust engine block, efficient cooling system, and durable construction for reliable operation in demanding environments, delivering 5.0 horsepower.

Product Overview

High-Performance Diesel Generator

This 5.0 horsepower diesel generator is engineered for reliable electric power transmission and distribution. Designed for demanding industrial environments, it features a robust engine block and an efficient cooling system to ensure consistent performance. Its durable construction makes it an ideal solution for critical power needs.

Technical Specifications

Rated Power

5 HP

Horsepower

Fuel Type

Diesel

Model ID

20D

Primary Application

Electric Power Transmission, Distribution
