

## 50-Liter Automatic Sensor Trash Can

This 50-liter trash can offers hands-free operation thanks to its automatic sensor. The sensor-activated lid opens when motion is detected for convenient and hygienic waste disposal.

### ADDITIONAL IMAGES

### Product Overview

The sleek design fits seamlessly into modern home or office environments.

### Hygienic Hands-Free Waste Management

This 50-liter automatic sensor trash can offers a modern, touchless solution for waste disposal in kitchens, offices, and commercial spaces. Featuring advanced infrared induction technology, the lid opens in just 0.3 seconds for maximum convenience and hygiene. Its durable cold-rolled steel construction and soft-close mechanism ensure a long-lasting and quiet user experience.

## Key Metrics

Large 50L (13 Gallon) capacity reduces the frequency of bag changes.

## Primary Specifications

**50 L**

Capacity

**13 gal**

Capacity

**0.3 sec**

Opening Speed

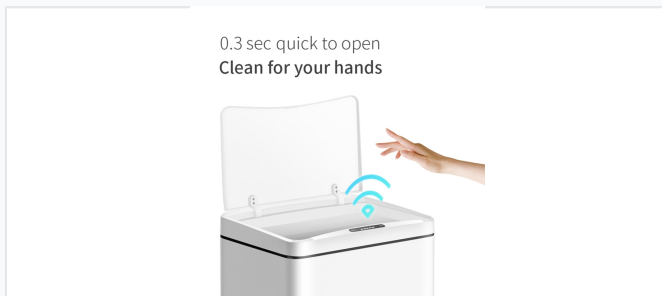

## Construction & Materials

Durable cold-rolled steel body with a fingerprint-resistant finish.

Body Material	0.50mm thick cold-rolled sheet with powder spraying
Lid Material	Rectangular ABS Lid
Base Design	ABS Base with rubber non-slip footpad

## Operation & Power

High-sensitivity sensor opens the lid in just 0.3 seconds for touchless operation.

User-friendly interface with manual override buttons.

## Closing Mechanism

Soft Close

Sensor Technology	Auto-induction infrared sensor
Power Requirements	6 x AA size batteries (not included)
Manual Controls	OPEN button, CLOSE button

## Design & Compliance

Available in multiple powder-coated finishes to match your decor.

### Available Colors

- Black
- White

### Certifications & Intellectual Property

SGS CE, RoHS, Design Patent

### Internal Configuration

None inner bin (Direct bag fit)
