

500A American Type Electrode Holder

This American type welding holder has a 500A capacity. It is designed with a robust construction and ergonomic handle, and it is suitable for electrodes ranging from 5/64" to 1/4".

Overview

Professional Welding Electrode Holder

This American-type welding electrode holder is engineered for durability and consistent performance in demanding welding environments. Featuring a robust construction with an iron upper jaw and brass lower jaw, it ensures excellent conductivity and heat resistance. With an ergonomic design and a weight of 475g, it provides the balance and comfort required for extended professional use.

Technical Specifications

Rated Current Capacity

500 A

Max Current

300 A

Min Current

Weight	475 g
Length	17.8 cm

Construction & Materials

Material Composition

Component	Material
Upper Jaw	Iron
Lower Jaw	Brass
Handle	Nylon

Compliance & Standards

Certifications	CE
