

500cc Manual Grease Dispenser

This 500cc manual grease dispenser is designed for efficient greasing in various applications. It features a die-cast pump head with an air bleed valve and offers three filling options: cartridge, bulk, or manual.

Product Overview

Professional Manual Grease Dispenser

This 500cc manual grease gun is a versatile and reliable tool engineered for efficient lubrication in various automotive and industrial applications. Featuring a durable die-cast pump head with an integrated air bleed valve, it ensures consistent performance and ease of use. With a flexible 3-way filling system—supporting cartridge, bulk, or manual methods—this tool provides maximum adaptability for different job requirements.

Technical Specifications

Capacity	500 cc
Filling Methods	Cartridge, Bulk, Manual

Included Accessories

Included Connectors
