## Overview

### Precision Wood Trimming

This compact and lightweight wood trimmer is engineered for precision trimming, milling, and engraving tasks. Equipped with a robust 500W copper motor, it delivers consistent performance and high-speed operation for fine detailing. The design features a stable fixed base and a transparent plastic base for enhanced visibility, ensuring smooth edges and accurate cuts on woodworking projects.

## Technical Specifications

Input Power	500 W
No Load Speed	30000 r/min
Chuck Size Diameter	6mm, 8mm
Motor Construction	Copper motor
Body Material	Aluminum

## Model Variants

### Voltage/Frequency Options

Model	Voltage/Frequency
P800902	220-240V~50/60Hz
P800902A	110-120V~50/60Hz

## Features

### Key Features

- Stable fixed base design
- Accurate depth adjustment
- Transparent base for visibility
- Durable aluminum body
