

500W Multi-Material Plunge Saw

The 500W multi-material plunge saw is a compact power tool for precise cuts in diverse materials. It features adjustable depth and bevel settings, making it suitable for wood, plastic, tile, and metal.

Overview

Versatile Precision Cutting

The 500W Multi-Material Plunge Saw is a compact and versatile power tool engineered for precise cuts across various materials including wood, plastic, tile, and metal. Its specialized plunge-cutting capability and ergonomic lightweight design make it ideal for detailed work and accessing tight spaces where traditional saws cannot reach. Equipped with adjustable depth and bevel settings, it provides professional-grade control for a wide range of installation and renovation tasks.

Performance Metrics

Key Performance Metrics

500 W

Input Power

3300 RPM

No Load Speed

235 mm

Blade Diameter

Technical Specifications

Power Supply

220-240V ~ 50/60Hz

Cutting Capabilities

Cutting Capacity

Cutting Angle	Max Depth
90°	80mm
45°	70mm

Material Compatibility

Suitable Materials

Wood, Plastic, Tile, Metal

Safety & Design

Key Features

- Plunge cutting capability for interior cut-outs
- Adjustable depth gauge for precision control
- Bevel settings for angled cuts
- Ergonomic grip for comfortable operation
- Integrated blade guard for user safety
- Spindle lock for quick and easy blade changes
