Product Overview

Portable energy storage cabinet with multiple output ports and integrated status display.

Versatile Portable Power Station

This 500W portable power station is a multifunctional energy solution designed for both emergency home backup and outdoor adventures like camping and hiking. Equipped with a high-capacity 520Wh lithium battery, it provides reliable AC, DC, and USB power to keep everything from small appliances to personal electronics running longer. The unit features a robust, flame-retardant casing and comprehensive safety protections, including overload, short-circuit, and temperature safeguards, ensuring dependable performance whenever you need it.

Technical Specifications

PRODUCT DESCRIPTION

ENERGY STORAGE CABINET

Clear interface panel featuring USB, Type-C, and AC/DC output ports for versatile device charging.

Battery Capacity

140400 mAh

Capacity

520 Wh

Energy

Power Output

Output Type	Specifications
AC Output	2x 110V/230V, 500W (1000W peak)
DC Output	4x 9~12V, 10A (12A total max)
USB Output	2x 5V, 3.1A (15.5W max)
QC Outputs	USB & Type-C, 5-9V/2A

Physical and Safety

CHARACTERISTIC

The unit features high-temperature resistant casing and multiple electronic safety protections.

Size & Weight

- Dimensions: 306 x 200 x 176 mm
- Weight: 6.0 Kg
- Casing Material: Flame-Retardant ABS

Safety Protections

Over Temperature Protection, Over Discharging Protection, Over Current Protection, Overload Protection, Short Circuit Protection, Over Voltage Protection

Battery Lifecycle

>500 Cycles (Estimated 10 years)
