Overview

High-Efficiency 600W Charging Solution

This 600W battery charger is engineered for reliable performance across a variety of electric mobility applications, including e-bikes, electric motorcycles, and scooters. Featuring a durable aluminum alloy housing, it provides robust thermal management and consistent power delivery. With support for multiple battery chemistries and global socket standards, it is a versatile solution for professional and consumer charging needs.

Technical Specifications

Output Voltage & Current

50.4 V

Output Voltage

10 A

Output Current

Output Power	600 W
Input Voltage Range	110-132VAC / 200-264VAC
Supported Battery Types	Li-ion, LiFePO4, Lead Acid

Physical Dimensions

Dimensions	135 x 90 x 50 mm
Net Weight	1.35 kg
Housing Material	Aluminium Alloy

Certifications & Warranty

Certifications

CE • RoHS

Warranty

12 Months

Compatibility & Use

Suitable Applications

- Electric Motorcycle
- Electric Scooter
- E-bike

Socket Standard

Customizable based on destination country
