Product Overview

High-Efficiency E-Mobility Charger

The S120 Li-ion battery charger provides a reliable and efficient power solution designed for demanding e-mobility applications. Featuring a robust aluminium alloy construction and a 151.2W power output, it ensures stable charging performance for e-bikes, scooters, and various electric utility vehicles. Equipped with status-indicating LEDs and international safety compliance, this unit is engineered for professional, long-term use.

Electrical Specifications

Total Output Power

151.2 W
Power

50.4 V
Voltage

3 A
Current

Input Voltage Range

110-132VAC / 200-264VAC

Physical Properties

Dimensions	137 x 90 x 51 mm
Net Weight	0.8 KG
Housing Material	Aluminium Alloy

Compatibility & Compliance

Safety Standards

CE

Typical Applications

E-bikes, Motorcycles, Scooters, Cleaners, Golf Carts

Warranty Period

12 Months
