

50cc Gas Scooter for Urban Transportation

This 50cc scooter is designed for urban transportation. It features a front basket for carrying items and a step-through frame for easy mounting and dismounting.

Overview

Efficient Urban Mobility

This 50cc gas scooter is engineered for reliable urban transportation, featuring a lightweight 87kg design and a compact frame for easy maneuvering through city traffic. Equipped with a fuel-efficient 4-stroke air-cooled engine, it offers a practical balance of performance and economy for daily commuting. The step-through frame, front storage basket, and dual starting systems ensure a convenient and user-friendly experience for professional and personal use.
