

## 50cc Gas Scooter with Step-Through Frame

This 50cc gas scooter is designed with a step-through frame for easy access. It is suited for urban commuting and short trips.

### ADDITIONAL IMAGES

### Overview

Modern aerodynamic design suitable for urban commuting.

### Urban Mobility Solution

This 50cc gasoline scooter features a convenient step-through frame design, making it an ideal choice for urban commuting and short-distance travel. Engineered for efficiency and ease of use, it combines a reliable four-stroke engine with an automatic transmission for a smooth riding experience. With its compact dimensions and agile handling, this scooter is perfectly suited for navigating congested city streets.

### Engine & Performance

#### Performance

**1.8 Kw**

Max Power

**2.8 Nm**

Max Torque

#### Fuel System

Fuel Injection

#### Engine Configuration

50cc, 4-stroke, single cylinder, air-cooled

## Dimensions & Build

Compact rear design with integrated taillight and license plate bracket.

Dimensions (L*W*H)	1830 x 680 x 1050 mm
Wheelbase	1280 mm

## Chassis & Safety

Dual headlight assembly and integrated turn signals for enhanced road visibility.

### Braking System

Position	Type
Front	Disc
Rear	Drum

Suspension	Hydraulic fork (Front) / Double suspension (Rear)
Tire Specifications	3.50-10 (Front & Rear)

## Features

Equipped with a digital instrument panel for clear visibility of speed and fuel levels.

Start Type	Electric Start, Kick Start
Compliance	EEC, Euro5
