

50kg Industrial Jeans Washing Machine

This industrial washing machine is designed for jeans and heavy-duty fabrics. It features a stainless steel drum and a control panel for adjusting wash cycles.

Overview

Industrial Strength Washing Solutions

The BX series industrial washing machine is a robust, horizontal-structure solution designed for heavy-duty applications including hotels, restaurants, and garment factories. Constructed with high-quality stainless steel for both the drum and frame, it ensures long-lasting durability and high efficiency in demanding environments. This semi-automatic machine is specifically engineered for low consumption and quiet operation while maintaining the safety standards required for professional laundry plants.

Key Performance

Key Performance Metrics

50 kg

Rated Capacity

35 r/min

Rotate Speed

620 kg

Water Consumption

Technical Specifications

Machine Structure	Horizontal structure
Material	Stainless steel drum and frame
Heating Method	Steam Heating, Electrical Heating
Operation Type	Semi-automatic

Physical Dimensions

Drum Size	Æ800*980mm
Overall Dimensions	1750*1200*1500 mm
Machine Weight	500 kg

Applications

Suitable Industries

- Hotels and Restaurants
- Laundry Houses
- Water Washing Plants
- Garment and Apparel Factories
- Wool Processing

Compliance & Packaging

Certifications

CE • ISO9001

Packaging Type

Wooden box
