Product Overview

Industrial Laundry Efficiency

The 50kg industrial washing machine is a robust, horizontal-structure solution designed for high-capacity laundry operations. Built with a high-quality stainless steel drum and frame, it ensures long-term durability and efficiency for heavy-duty applications. Ideal for hotels, restaurants, and commercial laundry facilities, this semi-automatic system provides reliable performance and low operating noise.

Technical Specifications

Heating Options

- Steam heating
- Electrical heating

Loading Capacity	50 kg
Structure Type	Horizontal
Construction Material	High-quality stainless steel

Performance & Compliance

Operational Benefits

- High efficiency
- Low power consumption
- Low noise operation
- Semi-automatic controls

Certifications	CE, ISO9001, SGS, UKAS, BUREAU VERITAS
