

50kW Soundproof Diesel Generator

This 50kW mute generator group is designed for reliable and quiet power generation. It features a soundproof enclosure to minimize noise pollution, making it suitable for noise-sensitive environments.

Overview

High-Performance Soundproof Power Solution

This 50kW diesel generator is engineered for reliable and quiet power generation, featuring a specialized soundproof enclosure to minimize noise pollution. It is designed for efficient fuel consumption and durability, making it an ideal choice for industrial, commercial, and residential backup power needs. The unit includes essential safety features such as overload protection and automatic shutdown for critical faults, ensuring both reliability and ease of maintenance.

Electrical Specifications

Common Power	30 kW
Rated Power Factor	0.8 (lag)
Rated Output Voltage	400V/230V

Performance Metrics

Rated Current

54 A Common Current	60 A Standby Current
-------------------------------	--------------------------------

Rated Speed	1500 rpm
-------------	----------

Safety & Features

Safety Features	Soundproof Enclosure, Overload Protection, Automatic Shutdown, Easy Maintenance Access
