

5.1 Channel Computer Speaker System with Subwoofer

This 5.1 channel computer speaker system provides full surround sound. It includes a subwoofer and five satellite speakers.

Product Overview

Immersive 5.1 Channel Audio System

The EM-5012FST is a versatile 5.1 channel speaker system engineered to provide a comprehensive surround sound experience for gaming, cinema, and music playback. This system combines a dedicated subwoofer for deep, resonant bass with five satellite speakers to ensure clear, balanced mid and high-frequency audio. Designed for modern workspaces and entertainment setups, it offers flexible connectivity options including Bluetooth wireless streaming, USB/SD playback, and FM radio support.
