

51.7cc 1.4kW Gasoline Engine

This 51.7cc gasoline engine has a maximum power output of 1.4kW at 6500rpm. It features a 44mm cylinder diameter and a 1.2L fuel tank capacity.

Product Overview

High-Performance Gasoline Engine

This 51.7cc gasoline engine is engineered for reliability and efficient performance in demanding environments. Delivering 1.4kW of power, it is a versatile solution suitable for powering various handheld power equipment such as trimmers and brush cutters. Its compact design and lightweight construction ensure ease of use, while the diaphragm carburetor system promotes consistent operation.
