

52.4mm Big Bore Cylinder Kit for GY6 125cc Scooters

This 52.4mm big bore cylinder kit is designed for GY6 125cc scooter engines. The kit enhances the engine's displacement, providing increased horsepower and torque.

Product Overview

Performance Cylinder Kit

This 52.4mm big bore cylinder kit is precision-engineered to enhance the performance of GY6 125cc scooter engines. The kit includes all essential components, such as the cylinder, piston, rings, wrist pin, and circlips, designed for improved compression and power output. Manufactured from durable materials, it ensures optimal heat dissipation and long-term reliability for your engine upgrade.

Technical Specifications

Bore Diameter	52.4 mm
Engine Capacity	125cc
Cooling System	Air-cooled

Service & Terms

Payment Terms

Order Type	Terms
Small Quantity	T/T, 30% deposit, balance before delivery
Large Quantity	T/T, L/C at sight (irrevocable)

Shipping Options

Sea Freight • Air Freight

Warranty Period	9 to 12 months
