Product Overview

Professional Grade Handheld Earth Auger

This powerful 52cc earth auger is engineered for efficient hole drilling across diverse soil types. Designed for versatility, it supports five different bit sizes ranging from 100mm to 300mm to accommodate gardening, landscaping, and construction project requirements. The unit is fully certified to meet stringent European safety and environmental standards, ensuring reliable performance and compliance.

Technical Specifications

Compatible Auger Bit Diameters

- 100
- 150
- 200
- 250
- 300

Engine Displacement	52 cc
