Product Overview

High-Performance Gasoline Chainsaw

This robust 54cc gasoline chainsaw is engineered for professional and domestic wood-cutting applications, delivering a powerful 2.5kW output. It features an advanced cooling system that reduces operating temperatures by 13% for extended engine longevity of up to 200 hours. Designed with user safety and comfort in mind, it includes an automatic anti-kickback braking system, low-vibration operation, and efficient lubrication technology.

Engine Specifications

Engine Performance Metrics

54.5 cc

Displacement

2.5 kW

Rated Power

3.3 hp

Horsepower

Operational Details

Parameter	Value
Max Speed	12,500-12,800 rpm
Idle Speed	3300 ± 400 rpm
Fuel Capacity	520 ml
Oil Capacity	260 ml

Cutting Configuration

Available Cutting Options

- Bar Length: 16, 18, 20, 22, 24 inches
- Chain Pitch: .325 or 3/8 inch
- Gauge: 0.050G or 0.058G
