Product Overview

Versatile Power Solution

This robust 5.5 HP engine is engineered for reliability and versatility, making it an ideal power source for a wide array of machinery. Designed to be compatible with various equipment types including mowers, generators, pumps, and construction tools, it offers a dependable performance profile. Its compact, durable construction ensures it can withstand demanding industrial environments while remaining easy to maintain.

Technical Specifications

Power Output

5.5 HP

Rated Power

Model Identifier

AT160

Cooling System

Air-cooled

Starting Method

Manual Recoil Start

Operational Guidelines

Basic Startup Steps

- Fill the engine with oil
- Fill the engine with fuel
- Turn the engine switch on

Safety Compliance

Read manual before operation, Professional maintenance recommended

Applications

Compatible Equipment

- Lawn Mowers
- Portable Generators
- Water Pumps
- Construction Machinery
