

5.5 HP Gasoline Engine for Small Machinery

This 5.5 HP gasoline engine is commonly used in small machinery and equipment. It features a durable construction and is designed for reliable performance.

Product Overview

Compact and Reliable Power

This 5.5 HP gasoline engine is engineered for versatility and consistent performance in small machinery applications. Designed with durability in mind, the unit features a robust construction suitable for demanding environments. It comes fully equipped with essential components including an air cleaner assembly and a fuel tank, making it a reliable choice for equipment requiring a compact yet powerful engine solution.

Technical Specifications

Power Output

5.5 HP

Rated Power

Fuel Type

Gasoline

Maintenance & Features

Included Components

- Air cleaner assembly
- Fuel tank
- Fuel tank cap

Maintenance Notes

Air Cleaner Service Required
