

5.5 HP Gasoline Engine with Electronic Ignition

This 5.5 HP gasoline engine is designed for a variety of applications. It features electronic ignition and an oil alert system for reliable performance and enhanced durability.

Product Overview

Professional 5.5HP Gasoline Engine

This robust 5.5 HP gasoline engine is engineered for reliable performance in demanding industrial and commercial environments. Featuring an advanced electronic ignition system and an integrated oil alert mechanism, it provides consistent power while protecting internal components from damage. Built to rigorous quality standards with 100% copper wiring, this unit is an ideal power source for a wide array of heavy-duty machinery.

Technical Specifications

Performance Metrics

5.5 HP Max Power Output	160 cc Displacement
-----------------------------------	-------------------------------

Engine Specifications

Attribute	Value
Ignition System	Electronic
Starting System	Manual
Air Cleaner	Standard
Fuel Tank Capacity	L
Oil Capacity	L
Fuel Consumption	g/HP-hour

Certifications

Standards and Certifications	CE, ISO 9001:2000
