Overview

High-Performance Vehicle Inverter Generator

This 5500W inverter generator is specifically engineered for RVs and specialized vehicles, providing a stable and clean pure sine wave output. It features a super silent design operating at 65dBA and is capable of 24-hour continuous operation under full load without power reduction. Designed for mobility, it can safely operate while the vehicle is in motion and offers significant fuel savings of 20% to 40% compared to traditional units.

Power Performance

Key Power Ratings

5 kW

Rated Power

5.5 kW

Max Power

2.5 %

Max THD

Supported Voltages

110V, 220V, 240V

Frequency

50 / 60 Hz

Engine Specifications

Engine Technical Data

Feature	Specification
Model	JD190F
Type	Forced Air Cooled, Single Cylinder, 4-Stroke OHV
Displacement	420cc
Speed	2800-3600 rpm (load-based)
Fuel Type	Unleaded Gasoline / LPG

Control & Monitoring

5-inch LCM Display Functions

- Remote Start / Stop Control
- Load Status Monitoring
- Voltage & Frequency Display
- Power Rate & Working Hours
- Inverter System Information
- Battery Status

Safety Systems

Short Circuit Alarm • Overload Alarm • Low Oil Alarm • Overload Protection

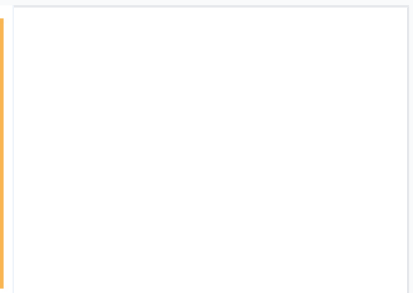

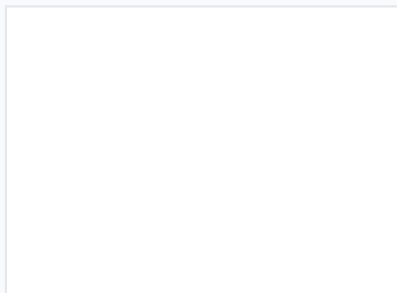

Operation & Efficiency

Fuel Tank Capacity	24 L
Continuous Running Time	9 hours
Noise Level (7m)	63 dBA

Physical Dimensions

Dimensions (LxWxH)	730 x 670 x 640 mm
Net Weight	87 kg

Compliance

Product Certifications

EPA, CE, ISO 9001
