

5.5kW Electric Start Gasoline Generator

This gasoline generator provides portable power for a variety of applications. With a maximum output of 5.5kW, it is capable of powering multiple devices and appliances simultaneously.

Product Overview

Reliable Portable Power Solution

This 5.5kW gasoline generator is designed for high-performance power delivery across construction sites, outdoor events, and emergency backup scenarios. Featuring a robust protective frame and convenient electric start functionality, it offers both durability and ease of operation. The unit includes essential safety features like a low oil shutdown system and a built-in voltmeter to ensure consistent and protected power output.

Performance Specifications

Maximum Power Output

5.5 kW

Max Output

Model Number

DK5.5GF-4

Features & Safety

Safety Indicators

Oil Alert System • Voltage Monitoring

Key Features

Electric Start, Low Oil Shutdown, Voltmeter Included, Durable Protective Frame

Operational Details

Primary Applications

- Construction Sites
- Outdoor Events
- Emergency Backup Power
