

56-Inch Ceiling Fan for Industrial and Home Use

This 56-inch ceiling fan is designed for both household and industrial use. Its durable construction ensures long-lasting performance in a variety of environments.

Overview

Versatile Air Circulation Solution

This 56-inch ceiling fan is engineered for both industrial and residential applications, providing reliable air circulation and cooling. Constructed from a durable blend of iron and plastic, it is designed to withstand the demands of various environments. Its large blade span makes it an ideal choice for large rooms, commercial spaces, and industrial settings requiring consistent ventilation.

Technical Specifications

Model Number	CF1056E-3M(C)
Product Code	CF1056E-3M(C)
Size	1400 mm
Construction Materials	Iron, Plastic

Logistics

Place of Origin	Guangdong, China
Place of Shipment	Guangdong, China

Features

Finish Color	White
