

56-Inch Industrial Ceiling Fan

This 56-inch industrial ceiling fan is a robust ventilation solution for large industrial and commercial spaces. The fan features a durable motor and engineered blades to provide powerful airflow and effective cooling.

Overview

Industrial-Grade Airflow Solution

The 56-inch industrial ceiling fan is a robust and efficient ventilation solution specifically engineered for demanding commercial and industrial environments. Featuring a durable motor construction, it provides powerful, consistent airflow to effectively cool large spaces like warehouses, factories, and workshops. Its sturdy build quality ensures long-lasting performance even in challenging conditions.

Technical Specifications

Model Number	CFN56C-3M(F)
Product Code	CFN56C-3M(F)
Fan Size	1400 mm

Construction & Materials

Finish Color	White
Materials	Iron, Plastic

Logistics

Place of Origin	Guangdong, China
Place of Shipment	Guangdong, China
