

56-Inch Industrial Ceiling Fan

This 56-inch ceiling fan is designed for industrial and commercial use. Its robust motor and durable construction provide efficient air circulation in large spaces.

Product Overview

Industrial Air Circulation

This heavy-duty 56-inch ceiling fan is engineered specifically for demanding industrial and commercial environments. Built with a robust motor and durable iron and plastic construction, it ensures reliable performance in large spaces like warehouses and factories. The aerodynamically optimized blades deliver maximum airflow while maintaining quiet operation.

Technical Specifications

Color

White

Product Code

CF8056-3M(C)

Size

1400 mm

Materials

Iron, Plastic

Logistics

Place of Origin

Guangdong, China

Place of Shipment

Guangdong, China
