

560L Side-by-Side Refrigerator with Water Dispenser

This side-by-side refrigerator features a frost-free design and DC frequency technology for energy-saving operation. It also utilizes 3D anti-bacteria technology and a fashionable bar top.

Product Overview

Premium Side-by-Side Performance

This 560L side-by-side refrigerator combines modern aesthetics with advanced cooling technology to ensure optimal food preservation. Featuring DC frequency control and a sophisticated multi-point sterilization system, it provides a stable, hygienic environment for all your groceries. The unit is designed for convenience, incorporating a built-in water dispenser, high-definition LED interface, and a smart mini-bar for efficient access.
