

# 5700-Watt Portable Gasoline Generator

This portable generator delivers 7125 starting watts and 5700 running watts. It is equipped with multiple outlets and a digital display for monitoring voltage, frequency, and operating hours.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Portable Power

This portable gasoline generator is engineered for reliable power delivery in demanding environments, from job sites to emergency backup situations. Featuring a robust 4-stroke engine and a large fuel capacity, it ensures long-running operation for essential tools and appliances. With versatile outlet options and an integrated digital display for real-time monitoring, this unit provides a safe and user-friendly power solution.

## Performance Metrics

Max Output	6000 W
Rated Output	5500 W
Starting Watts	7125 W

## Engine Specifications

Engine Displacement	389cc
Engine Type	4-Stroke, Single cylinder, OHV, Air cooled
Starting Method	Recoil, Electric

## Operation & Safety

### Safety Features

Neutral bonded to frame • GFCI Protected

Fuel Tank Capacity	31 L
Noise Level (@7m)	72 dB(A)

## Connectivity

### Available Outlets

Outlet Type	Amperage
AC 120V/240V	30A
AC 120V	30A
GFCI AC 120V	20A

### Monitoring

Digital display showing voltage, frequency, and operating hours
