

5.8 kg Capacity Top-Load Washing Machine

This top-load washing machine has a 5.8 kg capacity and offers a convenient and efficient laundry solution. It features a user-friendly control panel with a digital display for easy selection of various wash cycles and settings.

Overview

Intelligent Top-Load Performance

This 5.8kg capacity top-load washing machine features an advanced intelligent computer board for precise fuzzy control and customizable wash cycles. Designed for efficiency, it incorporates 3-D waterfall scrubbing technology to improve cleaning performance by 20% while minimizing fabric wear. With a durable, rust-proof plastic shell and stainless steel drum, this machine offers reliable operation and energy-saving features suitable for modern households.
